TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Peterborough, in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town House in said Town on Tuesday, the ninth day of March next, at eight-thirty of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. Is it expedient to revise the Constitution?
3. To raise such sums of money as may be necessary for the maintenance of the poor, for the laying out and repairing of highways, and for all other charges arising within the Town and appropriate the same.
4. To raise and appropriate such sums of money as may be necessary for the support of the Fire Department, the Public Library and Memorial Day.
5. To see what sum of money the Town will vote to raise and appropriate towards paying the Town debt and interest.
6. To hear the reports of agents, auditors, committees, or officers heretofore chosen, and to pass any vote relating thereto.
7. To see if the Town will vote to instruct the Selectmen to appoint a Police Officer, or as many as may be necessary, to preserve order in and about the public places of the Town, and to perform other duties as may be required by the Selectmen, both day and night, and raise and appropriate money for the same.
8. To see if the Town will vote to accept legacies and gifts given to the Town in trust by any individual or individuals.
9. To see if the Town will vote to raise and appropriate the sum of Seven Hundred Fifty-Nine Dollars and Twenty-three cents, (\$759.23), provided the State gives Three Thousand Thirty-Six Dollars and Ninety-three cents (\$3036.93) for Town Road Maintenance, and construction on Class V. Highways.

10. To see if the Town will vote to raise and appropriate the sum of Five Thousand Dollars (\$5,000.00), provided the State gives a like amount, toward the completion of the Greenfield Road.

11. To see what sum of money the Town will vote to raise and appropriate for the expense of Supervision and materials on proposed projects to be undertaken through Public Works Administration or Works Progress Administration.

12. To see what sum of money the Town will vote to raise and appropriate toward a complete survey and mapping of the entire Town.

13. To see what sum of money the Town will vote to raise and appropriate toward paying for Electricity, both for power and lighting purposes to be used at the new Swimming pool on Union Street.

14. To see if the Town will vote to instruct the Selectmen to locate two Street Lights on the Greenfield Road, north of the North Peterborough Bridge, and raise and appropriate money for the same.

15. To see if the Town will vote to instruct the Selectmen to locate one or more Street Lights at the Junction of Union, High, Main and Vine Streets, and raise and appropriate money for the same.

16. To see if the Town will vote to instruct the Selectmen to provide for ornamental Street Lights on Grove Street from Town House to Vale Street, and raise and appropriate money for the same.

17. To see if the Town will vote to authorize the Selectmen to enter into a contract for Public Lighting with the Public Service Company of New Hampshire for a period not to exceed ten years.

18. To see what sum of money the Town will vote to raise and appropriate toward providing a Community Nurse, or take any other action relating thereto.

19. To see if the Town will vote to adopt an ordinance for Traffic and Parking regulations within the compact part of the Town, and raise and appropriate money for the same.

20. To see if the Town will vote to provide a public parking place, and raise and appropriate money for the same.

21. To see what sum of money the Town will vote to raise and appropriate toward repairing the American Legion Hall.

22. To see if the Town will vote to adopt Daylight Saving Time, or take any other action relating thereto.

23. To see if the Town will vote to instruct the Selectmen to remove the Watering Trough on Summer Street, and raise and appropriate money for the same, or take any other action relating thereto.

24. To see what sum of money the Town will vote to raise and appropriate toward providing Counsel for the restoration of Train Service.

25. To see what sum of money the Town will vote to raise and appropriate for the suppression of Gypsy and Brown Tail Moths, White Pine Blister Rust or any other insect or pest.

26. To see what sum of money the Town will vote to raise and appropriate for expenses of the Town Zoning Commission and Planning Board.

27. To see what sum of money the Town will vote to authorize the Selectmen to expend from any money in the Treasury not otherwise appropriated for the Town's proportionate part in the rebuilding of Powers Bridge on Batchelder Road.

28. To see if the Town will vote to appoint a Committee for the purpose of making preparation for bringing the Town History up to date, and make their report with recommendations at the next annual Town Meeting.

29. To see if the Town will vote to appoint a Committee for the purpose of making preparation for the celebration of the Two Hundredth Anniversary of the settling of the Town of Peterborough, and make their report with recommendations at the next annual Town Meeting.

30. To see what sum of money the Town will vote to raise and appropriate to the account of the Board of Trade.

31. To see if the Town will vote to extend the Town Water from the junction of Pine Street and Cheney Avenue to Wilton Road and to raise and appropriate money for the same, or take any other action relating thereto.

32. To see if the Town will vote to amend an ordinance relating to the observance of the Lord's Day, provided the legislature passes House Bill 224.

33. To see what sum of money the Town will vote to raise and appropriate toward the purchase of land, and the erection of a new tool house, or take any other action relating thereto.

34. To see if the Town will authorize the Selectmen to administer or dispose of any real estate acquired by the Town through Tax Collector's Deeds.

35. To see what sum of money the Town will vote to authorize the Selectmen to borrow in anticipation of taxes.

36. To see if the Town will transact any other business that may legally come before this meeting.

Given under our hands and seal, this Twentieth day of February, in the year of our Lord, Nineteen Hundred and Thirty-Seven.

C. M. CUMMINGS

FORREST C. MERCER

MARTIN J. KEENAN

Selectmen of Peterborough

BUDGET OF THE TOWN OF PETERBOROUGH, N. H.

Respectfully submitted,

EBEN W. JONES,

C. M. CUMMINGS

JAMES A. LONGLEY

Trustees of the Weston Memorial Fund

AUDITORS' REPORT

We, the undersigned auditors of the accounts of the Town of Peterborough, N. H., hereby certify that we have carefully examined the foregoing accounts of the officers, committees, and others having charge of monies for the year ending January 31, 1937, Pages 43 to 90 inclusive, with the exception of the Weston Memorial Fund Account, the James C. Smith Fund Account, and the Amanda Richardson Fund account, and find them correctly cast and properly vouched.

MAURICE H. NICHOLS

CHARLES M. LARRABEE

Peterborough, N. H., February 23, 1937

Advance, Woman's Society of the Union Congregational Church; Airwoman; American Forests, Miss Anna L. Prichard; American Issue, American Issue Publishing Co., Washington, D. C.; American Legion Monthly, Mrs. Robert E. Walbridge; Bell Telephone Quarterly, New England Telephone and Telegraph Co.; Bulletin of the American Society for Control of Cancer; Christian Register, Woman's Alliance of the Unitarian Church; Christian Science Monitor, Mrs. John J. White; Columbia, Knights of Columbus; Daughters of the American Revolution Magazine, Peterborough Chapter D. A. R.; Dupont Magazine; Guernsey Breeders' Journal, The American Guernsey Cattle Club; Health, State Board of Health; Horticulture, Miss Marcia Zieget; The Household Magazine; Independent Woman; Life and Health, New England Sanitarium, Melrose, Mass.; Living Church, Mrs. William H. Schofield; National Humane Review, Miss Fanny Sturgis; National News of the American Legion Auxiliary; National Republic; New Hampshire Issue, New Hampshire Anti-Saloon League, Concord, N. H.; Our Dumb Animals, Massachusetts Society for the Prevention of Cruelty to Animals; Osteopathic Magazine; Peterborough Transcript, Transcript Printing Co.; The Rosicrucian Magazine; Rotarian, Peterborough Rotary Club; Specialty Salesman Magazine, Mr. H. J. Bligh, Milwaukee, Wis.; Telephone Quarterly and Telephone Topics, New England Telephone and Telegraph Co.; Trained Men, International Correspondence School, Scranton, Pa.; Troubadour, State Planning and Development Commission.

WORK WITH SCHOOLS

It may be of interest to know something about the work the library has done for the schools in town, during the past year.

391 books have been loaned to the teachers of our High school for use of the pupils in the school room: 1,470 books to the Center school, and 396 to the West Peterborough school making a total of 2,257 books borrowed by the schools.

Also, 542 pictures have been loaned for schoolroom use.

In the Center school, of the pupils in the 3rd, 4th, 5th and 6th grades, all but 27 have library cards, and are taking books from the library; most of the 27, not having cards, are outside pupils. Even the 1st and 2nd grades have a few children with cards of their own, of which we are quite proud, because children must be able to write their names before having personal library cards.

The 4th grade has only one pupil without a library card and the 6th grade but 4. Out of the 75 pupils in the 7th and 8th grades,

all but 20 have cards; and of the 168 in High school, all but 18.

A record of books taken out by the high school pupils for three months, gave a total of 1,350.

We feel that this is an extremely good average, and shows that the library is of great value to our schools; also, that the teachers are working with us to help stimulate an interest in reading.

The librarian, assisted by Mrs. Hunter, went to the high school and gave a talk on how to use the library. She also gave short reviews of some books of special interest to the pupils, and had on display, a collection of signed, first editions.

Book Week an exhibition of new books, "From Nursery Rhyme to Grown-up Time," showing books for the youngest readers to the most advanced, was on display at the Public Service Company's store.

HISTORICAL ITEMS OF INTEREST AT LIBRARY

Within the past year or two your librarian has collected many pamphlets of local historical interest. These have been classified, catalogued and put in the library, some of them valuable enough to be used as reference books only. Among these are complete files of the Progressive Club and Daughters of the American Revolution calendars. Also, pamphlets and programs of the MacDowell Colony activities. The library has a complete record of our High School—consisting of graduation programs with names of all graduates from the beginning. It also has a complete record of all "Grave Stones in Village Cemetery," both compiled by Mr. Eben W. Jones. All these papers and articles are of great value as historical data, but until collected and catalogued, were of little worth.

It might be of interest to some to see the great changes in town by looking at the "Peterboro' Directory" of 1873.

The flood in March caused considerable damage to the wall and grounds, but most of the work of restoration has been completed.

One of the greatest educational institutions in this country is, of course, the public library. And most of us would be surprised to know to what extent it is being used, not only for reading for pleasure, but also for reading with a purpose. The American Library Association estimates that requests made to libraries for educational help is 20 per cent greater today than in 1930.

This would be a cause for rejoicing were it not that library incomes have been cut in the past five years. It will be unfortunate if the fine impetus toward education and inspiration from books gradually diminishes because libraries lack means to satisfy it.

See that your town is not left behind in this attempt to make public library service what it should be—a great free source of education and culture for yourselves and your children.

Respectfully submitted,

MARTHA E. CUTLER

Librarian

Report of Chief of the Fire Department

TO THE SELECTMEN OF PETERBOROUGH, N. H.:

Gentlemen:

As Chief of the Fire Department, I submit my report from February 1, 1936 to February 1, 1937.

Alarms:

Building fires	4
Chimney fires	1
Oil heater fire	1
Rescue calls during flood	2
Out of town calls	3
False alarm	1
	— — —
	12

Still Alarms:

Chimney fires	19
Automobile fires	1
Oil heater fires	2
Building fires	1
Grass fires	2
Out of town fire	1
False alarm	1
	— — —
	27

The fire damage was small which was about \$160.00, and this was covered by insurance.

During the flood, a great deal of work was done to prevent property damage, and to aid people in distress. Men worked in shifts almost constantly for about 4 days, pumping out cellars, etc.

I feel that it should be brought to the notice of the Public that we have a fire truck that is about 23 years old, and it will not pass the motor vehicle inspection. This truck can be used, but it is unsafe. The body of the truck could be transferred to a new chassis for a reasonable price. It is hoped that the townspeople will feel it is possible to raise the appropriation of the fire department enough to remedy this condition.

As Forest Fire Warden:

Brush fire alarms	2
Still alarms	7
	— — —
	9

The damage caused by brush fires was slight.

Respectfully submitted,
JOHN V. PEARSON, Chief

Report of Police Department

TO THE SELECTMEN OF PETERBOROUGH, N. H.:

Gentlemen:

I hereby submit my report as Chief of Police from February 1, 1936 to January 31, 1937.

Arrests	39
Cases before the Municipal Court	39
Motor vehicle violations	26
Larceny	3
Drunkenness	6
Assault	2
Fish and Game violations	1
Murder	1
Disturbance calls	48
Lodgers	171

Respectfully submitted,

GEORGE F. MYHAVER, Chief of Police

Uncollected Taxes

February 1, 1937

PETERBOROUGH WATER WORKS

Analysis of Plant Values

As at January 31, 1936

Description of Account Classification

Part One

November 18, 1936

Board of Selectmen,
Town of Peterborough,
Peterborough, N. H.

Gentlemen:

In accordance with your instructions, we have made an analysis of available records to determine the approximate cost and depreciated value of the plant and equipment of the Peterborough Water Department as at January 31, 1936, under the classifications required by the Public Service Commission of New Hampshire.

We have designed a set of double entry books which have been opened with this Balance Sheet. In them will be recorded the transactions for 1936 and subsequent years in such form that the annual reports to the Public Service Commission can be prepared without difficulty.

Part One of this report contains the following exhibits and schedules.

Exhibit A Balance Sheet as at January 31, 1936

Schedule A-1	Land
A-2	Structures
A-3	Water Supply Equipment
A-4	Purification Equipment
A-5	Mains
A-6	Services
A-7	Hydrants
A-8	Meters
A-9	Other Equipment
A-10	Reserves for Depreciation

The following exhibits are in Part Two of this report:

Exhibit B Description of Accounts

Exhibit C Index to Report for Public Service Commission

Exhibit D Suggested Form For Continuation of Depreciation
Records

The Balance Sheet, Exhibit A, is arranged substantially under the captions and in the order used in the Public Service Commission reports. On it are shown the plant values for equipment in use with the total of reserves for depreciation, the details of

which are presented on Schedules A-1 to A-10.

In order to approximate the total cost of the construction recorded in the Water Department reports, we show on the schedules the cost or estimated cost of all equipment of which we have found any record. In each case where the facts are known, the property and equipment not in use have been deducted on the schedules in order that the final total of each group shall agree with the corresponding figure on the Balance Sheet. For example, on Schedule A-5 the cost of the wood pipe which was replaced is shown and later deducted. We were confronted with serious problems of allocations which we have not encountered in other municipalities. Information regarding the original cost and subsequent additions of hydrants, services, and meters was not available which necessitated numerous estimates.

Through the courtesy of Mr. E. W. Jones we had access to Messrs. Fuller's and Ellsworth's estimates of the cost of a gravity system. Apparently Mr. Fuller's suggestions were adopted since the system which was constructed closely follows his plan. His estimates were extremely valuable in allocating the original purchase price of \$45,000. The estimates used in connection with additions to services, hydrants, etc., are described in the following paragraphs.

On Schedule A-1, Land includes the original cost of land at Town Line Brook and at the reservoir, subsequent additions and amounts paid for land damages. It also includes the amount paid in settlement of the Noone suit for diversion of water supply.

On Schedule A-2 is shown the cost of the buildings erected to house the purification equipment. Depreciation is determined on an estimated life of 50 years.

Water Supply Equipment on Schedule A-3 includes the estimated cost of constructing the reservoir and the Town Line Brook dam. These estimates were made as a part of the allocation of the original contract price of \$45,000. The other items are listed at actual cost. The reservoirs are depreciated on a basis of 75 years.

Purification Equipment appearing on Schedule A-4 represents the original cost of the chlorination system from which the chlorinators which were replaced have been removed. Depreciation is based on a life of 10 years.

On Schedule A-5 are shown the original estimated cost of Mains and additions. In 1904 Cunningham Pond was connected with the town system. Of the entire cost, approximately \$14,280, the town paid one-third and Mrs. B. P. Cheney and Miss Elizabeth Cheney paid the balance. We included that portion paid by the town under Mains.

In 1920 wood pipe was purchased for the West Peterborough Extension but since this pipe was not laid until two years later, we understand some of it deteriorated and additional pipe was purchased. All of this wood pipe was replaced with iron pipe

in 1930 at a cost of approximately \$16,788. Depreciation for iron pipe is determined on an estimated life of 75 years.

Cost of Services appearing on Schedule A-6 represents the original estimated cost of services installed plus additions at estimated costs which are based on actual costs used by other municipalities at about the same periods. Depreciation is based on an estimated life of 25 years.

On Schedule A-7 are shown the estimated original cost of Hydrants and additions. Again we were faced with complete lack of information and had to make numerous estimates. Considering the number of hydrants, we feel that the figure shown on Exhibit A is conservative. The Hydrants are depreciated on a basis of 40 years.

Schedule A-8 is a tabulation of Meters. The amounts shown in the cost column are the costs of the meters. Since information on the dates of installation and size of meters was not available and since the purchase price shown seems to indicate a fairly high unit cost, we have added nothing for installation. Depreciation has been figured on a basis of an estimated life of 25 years.

Other Distribution System Equipment on Schedule A-9 represents the cost of Trucks. Although the truck purchased in 1930 is shown as fully depreciated, it was in use at the Balance Sheet date and therefore remains in the asset and reserve accounts. Depreciation has been determined at 20%.

Schedule A-10 is a tabulation of Reserves for Depreciation by types of property. The total appears on Exhibit A and the details on the other A schedules.

Cash on hand amounted to \$1,006.63 at the date of the Balance Sheet.

Accounts Receivable show a total of \$2,641.73 due from consumers.

The figure for Tools represents the estimated value of Tools and Shop Equipment.

The inventory of Supplies and Materials represents the approximate value of Supplies and Materials on hand at the date of the Balance Sheet.

The Long Term Obligations represent the balance of four serial note issues totalling \$32,500, bearing interest at various rates. These notes are due in varying amounts.

Municipal Investments of \$76,306.13 is the balancing figure on Exhibit A or is the remainder after deducting liabilities and reserves from total assets. It represents the depreciated investment of the Town of Peterborough in the Water Works at January 31, 1936.

Accrued Interest Payable covers Interest Accrued but not due on bonds.

Respectfully submitted,

FRANK L. WILLIS & COMPANY.

The foregoing Balance Sheets and Statement of Operations which conform with the requirements of the Public Service Commission, have been prepared by Frank L. Willis & Company, Certified Public Accountants, Concord, N. H., from the books and records of the Water Works without detailed verification.

Engineer's Report of Street Surveys

Article 19 of the Town Warrant submitted to the Voters of the Town Meeting of March 12, 1935: "To see what sum of money the town will vote to raise and appropriate toward a complete survey and mapping of the entire town." The article passed, and three hundred dollars (\$300) was appropriated.

The engineer was instructed by the Selectmen to begin the work with surveys of the streets of the Center Village, these surveys having as their object the securing of data for the purpose of establishing the street lines.

During the year immediately following the town meeting of March, 1935, surveys were made, covering the following: Intersection of streets at the town library; Concord street to the Sand Hill Road; Pine Street to its intersection with Granite, and Granite Street to its intersection with Bridge Street and the Wilton Road; Main Street from the town library to Union Square, so-called, or, the intersection of Union, High, Vine and Elm streets; Grove Street from Main to the railroad crossing near the Basket Shop.

Maps showing the results of these surveys, on tracing cloth, were turned into the Selectmen. The entire appropriation was used.

In explanation of the surveys: The method of latitudes and departures was used, in other words, all were related to one set of arbitrarily assumed rectangular co-ordinates, in order that all surveys made under this setup can be correlated. This method provides conditions which will admit of platting any section of the town, with a knowledge of its relation to any other section, or sections.

The surveys show everything found which is in the nature of a permanent bound of long standing, and as in use at the present time—stone posts, old stone curbing, bank walls, old fences, iron bounds, etc. With a full consideration of the relative merits of these miscellaneous bounds, the engineer has shown on the maps street lines which indicate his recommendation for a permanent establishment.

In this connection it should be explained that the majority of the principal streets and highways of the town, as shown by their various transcripts on the town records, are definitely defined as to their widths, and where this is the case, the maps show such widths between the street lines suggested, even though in the majority of the conditions thus far investigated, there has been encroachment on the width specified. If, in such case, the existing bounds on both sides of the street involved appear to be of equal importance, the shortage is equally divided between the two sides. On the other hand, if there is sufficient warrant to consider the bounds found on one side of older establishment, they are given greater consideration.

As to the courses or directions of a street: In the case of some of the transcripts found on the town records, the courses are

specifically defined by compass bearings, and as it must be remembered that the compass needle is changing its northerly pointing a certain amount each year, moving toward the west, it is impossible to reproduce the original courses with anything like a sufficient degree of accuracy to be used in work of this character. Again, some of the records of highway layouts describe certain roads or streets as being laid out over specific lands by 'various courses', which courses are not defined. It would appear that the problem becomes one in which if there is to be a permanent establishment of highway bounds, (and such a thing is highly desirable for the interests of the community), the first consideration is that the width of the street or highway as originally laid out must be adhered to. As to the direction, or courses, of the lines, these should be such as to involve the least property damage, and at the same time be consistent with a permanent street of reasonable shape or form.

The town meeting of March, 1936, by its vote passed, appropriated for the same purpose as above, and for the year immediately following that meeting, a like sum of three hundred dollars (\$300). Owing to the miscellaneous work rendered necessary by flood damage, the work of street surveys was materially interrupted, and only two-thirds of the appropriation was used. The surveys of 1936 cover the following: Union Street from Union Square to a point opposite to the bridge leading to the Truman Dean premises (formerly); High Street to MacDowell Road; Elm Street to Old Dublin Road; Old Dublin Road from Elm Street to Grove; Pine Street from its intersection with Granite to Bleakhouse Corner; Wilton Road from Bleakhouse Corner to the Street Road at Wilson Corner; Street Road from Wilson Corner to Sand Hill Road at Gordon Corner, so-called; Sand Hill Road from Gordon Corner to Concord Street. As to all of these last mentioned surveys, their maps, at least the maps of some of them, will not show the existing bounds, for the reason that they are only partially complete. Some of this data, however, will appear. As to the balance, the survey points are all available, and a limited amount of time will be required to complete them. The surveys above described are being so planned that they can easily be connected with former surveys, already made, of various properties on outlying roads.

Respectfully submitted,

FREDERICK PHILLIPS, Engineer

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the School District in the Town of
Peterborough, Qualified to Vote in District Affairs:*

You are hereby notified to meet at the Town House in said District on Wednesday, the third day of March next, at 7:30 o'clock in the afternoon, to act on the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose two Auditors for the ensuing year.
5. To choose a member of the School Board for the ensuing three years.
6. To hear the reports of agents, auditors, committees, or officers heretofore chosen.
7. To raise and appropriate such sums of money as may be necessary for school purposes for the school year 1937-1938.
8. To see if the District will raise and appropriate a sum of money to meet unusual expenses for the school year 1936-1937, and to adjust the appropriation for teachers' salaries due for the school year ending June 30, 1937.
9. To choose agents and committees in relation to any subject embraced in this warrant.
10. To see if the District will transact any other business that may legally come before this meeting.

Given under our hands this sixteenth day of February, A. D. 1937.

REPORT OF THE SUPERINTENDENT OF SCHOOLS TO THE PETERBOROUGH SCHOOL BOARD

I am enclosing with this, my third annual report, the schedule of teachers for 1936-1937, the Peterborough statistical summary, and the other reports that are concerned with the school department.

This supervisory union embraces six towns, five of which have schools with a total pupil enrollment for the present school year of 1224. There are 51 full time teachers in the union.

Twenty-one teachers comprise the Peterborough teaching staff. As indicated in the schedule of teachers, Peterborough is fortunate in having well trained teachers; most of them with considerable experience. The only changes that occurred at the opening of the school year were in the Domestic Arts and Manual Arts Departments. Miss Ruth R. Thurlow, a graduate of Farmington, Maine, Normal School succeeded Miss Edith Church, who accepted a position in Massachusetts, and Mr. Ralph E. Duso, a graduate of Keene Normal School, with one year of teaching experience in the Morrill Junior High School, Concord, New Hampshire took the position formerly held by Mr. Alfred R. Tobey, who resigned to become Principal of the Dublin Consolidated School.

Miss Dorothy Bresnahan, who has taught the social sciences in grades seven and eight for the past seven years resigned in December, and Mrs. Dena M. Churchill, a graduate of Keene Normal School, with three years of teaching experience was chosen to succeed her.

As indicated in the last two reports the work of the junior high school grades probably covers the most important period in a pupil's school career. For many years it has been recognized by educators that the problem of dealing with boys and girls in grades seven and eight is sufficiently different from that dealing with the lower elementary grades to justify a different type of school organization.

Careful attention has been given to this organization, and the changes made in the manual arts department, and the rearrangement of the domestic arts room, as described in Headmaster Clark's report, has enabled the junior high grades to do work under more favorable conditions with better equipment.

The first year of senior high school is another period where there is especial need for careful guidance. When the junior high school organization was new, educators claimed that the "break" between grades eight and nine had been eliminated, and that there was no "break" between grades six and seven, or at least only a slight one, occurring at a period when pupil adjustment was much easier than two years later.

As one who has lived and worked with classes through this transition, I can state that these educators were wrong in both instances. The change from grade six to seven has been one that

has challenged the skill of our best trained teachers in their efforts to help pupils adjust themselves to the new type of organization without undue loss of time. The fact that pupils enter the seventh grade too young to be allowed to leave school has been the main reason why the pupil loss from grade six to seven was less than from grade eight to nine during the earlier years of the junior high organization. During recent years teachers specially trained in junior high school work have replaced teachers who had been trained for senior high work, and had been transferred to the grades without proper training for that work, and who lacked sympathetic understanding of pupils of junior high age.

Years of careful study of the junior-senior high school organization has enabled our schools to make the transition from grade eight to grade nine easier than it formerly was, but in our local school we have a considerable number of pupils entering grade nine from straight eight year systems of school organizations, and these pupils need careful attention to enable them to get under way in their senior high school work without discouragement.

It has been the good fortune of Peterborough High School to be equipped to educate a large number of pupils from surrounding towns, and the tuitions received have been of substantial help in reducing the size of the local school budget. At the close of the school year 1935-1936, when the largest class ever graduated from the local high school had gone out it seemed that the number of tuition pupils would be considerably less for the present year, since the classes coming in from these towns were smaller than they had been three and four years before. Nine pupils from Dublin had graduated from our high school in June, while only six had graduated from the Dublin Consolidated School, and only four of these entered. Four Frankestown pupils had graduated and only two entered grade nine.

Due to the skillful work of Headmaster Clark in preparing the catalogue of Peterborough High School, and to his personal work in interesting parents in the advantages of our high school we have received eight pupils from Harrisville, where we had none last year, and six from Bennington, where we had only one last year.

Especial appreciation is due to Superintendent Gatto of Hillsborough, and to the Bennington School Board for their cooperation in granting the full tuition rate for the present year.

The work of the Central building has been very satisfactory. The grades in this building average twenty-six pupils. No grade has less than twenty-two and one, the fifth, has thirty-two pupils. With classes of this size more efficient work can be done than where the classes are much larger.

The installation of hot water in this building and the provision for serving a hot dish at noon daily is greatly appreciated.

West Peterborough has had twenty-seven pupils registered in the first four grades. The pupils from grades five and six are transported to the Central School. This arrangement seems to be working out satisfactorily.

Attention is invited to the interesting report of Headmaster Clark. I can only add that the teachers have given splendid co-operation in the plans outlined. It has been a pleasure to work with this group of teachers.

Careful plans are being worked out for the work of the junior and senior high school for the coming year, which we believe will increase the efficiency of this school.

We believe we have departed from the undemocratic procedure and unsocial atmosphere that existed in many schools in the past, when teachers felt it their duty to rule as sternly as dictators. In those days children were taught to be silent, except when called upon to recite, and then they were not supposed to report their own experiences or to express opinions.

Modern education approves of "projects" and "activities" as a direct form of preparation for the responsibilities of citizenship. While pupils are engaged in such enterprises they are learning facts and skills better than ever before, because they are learning in situations where group effort is united on problems they wish to solve for a purpose they know and value.

Teachers find that a curriculum based on social experiences solves many problems of discipline and backwardness. When teachers participate in the development of group enterprises with their pupils they tend to become more effective workers with their associates in the school and with their fellow citizens.

The citizens of Peterborough have shown a keen interest in maintaining good schools, realizing that modern schools cost money, but they also realize that their children are entitled to the best that they can afford.

I desire to thank all who have so generously cooperated in carrying on the work of our schools.

LEWIS S. RECORD
Superintendent of Schools

February 15, 1937

REPORT OF HEADMASTER HERBERT A. CLARK TO
SUPERINTENDENT LEWIS'S RECORD

I submit, herewith, my second report as Headmaster of Peterborough High school.

Cooperative Study of Secondary School Standards

We are all very happy that our high school is one of the two hundred selected in this country, to be studied this year. At no financial cost to us, we have been placed under the scrutiny of a survey which has already been very stimulating and will eventually give us a reasonably accurate yardstick by which to meas-

ure our work with that of other high schools. As the first step in assembling the data for this study, a specialist in testing came to Peterborough High School early this last fall and administered a series of most exacting tests to students in the three upper classes. These tests were intended to measure the potentialities of the students. Specifically, psychological tests and general content tests in the subjects of English, mathematics, science, and social studies were administered. As a second step, the headmaster, with the close cooperation of various members of the faculty, collected and evaluated criteria on all phases of our school as it was then operating. While this work was thoroughly exacting in the minuteness of details, it was executed in such a way as to stimulate our administration and teaching—in other words, the burden of the extra work which it naturally imposed upon all of us, was considerably balanced by the valuable educational guidance we have received. The third step followed shortly, when a selected committee of experienced educators in cooperation with officials of the State Board of Education, visited the high school for two full days and studied every phase of its operation in almost microscopic detail.

The evaluative criteria by which the several schools are being measured is standardized as follows:

- A. Basic Information—(1) The School's Philosophy of Education. (2) Purposes and Objectives of the School. (3) The Pupil Population.
- B. The Educational Program—(1) Curriculum and Courses of Study. (2) Pupil Activity Program. (3) Library Service. (4) Guidance Service. (5) Instruction. (6) Outcomes.
- C. The School Staff—(1) Statistical Data. (2) Qualifications. (3) Improvement in Service. (4) Conditions of Service.
- D. The School Plant—(1) Health and Safety. (2) Economy and Efficiency. (3) The Educational Program.
- E. School Administration—(1) Organization. (2) Supervision. (3) Budget. (4) Business Management. (5) School and Community Relations.

The comprehensiveness of this study can be visualized by recalling that each single item in the above list called for measurement of perhaps two hundred items!

The remaining steps in the study probably will include (1) submission of a questionnaire to parents of senior and recent graduates; (2) administration of comprehensive achievement tests in the spring to all three upper classes; (3) publication of the data as found in all two hundred schools.

This is but a brief picture of the study, but we are certainly pleased that our school was selected to participate. The work has already helped us to make some rather valuable improvements and when the full report is published undoubtedly we shall be guided to make other alterations.

Junior High School

The several changes in teaching personnel for grades seven and eight, coming at the same time, made it possible to initiate revisions in the curriculum.

The manual arts department, considerably augmented by better tools and under the guidance of an instructor specially trained for this work, is following a thoroughly up-to-date, state approved, course of study and the students are exceedingly enthusiastic. The most noticeable change has been the very professional manner in which instructor and students now care for the shop equipment. As soon as these boys were well drilled in the rudiments of handling tools, they cooperatively worked in groups upon projects which directly enhanced the efficiency of the manual training room. As a result we now have tool racks, a lumber rack, tool cabinets, a staining table and alterations of work benches.

In like manner, the domestic arts work for this grade has been brought under a new instructor and the entire room has been rearranged along more attractive and efficient lines. Bulletin board space, seating arrangement, lighting, reference materials, and cooking equipment have all been improved. As far as it has seemed permissible, besides regular cooking and sewing instruction, the teacher has introduced other work pertaining to the everyday problems of home life.

Besides continuing the addition of new text books down into the junior high school English courses, the teaching schedule now provides for all such English to be taught by one instructor. Thus we are continuing the policy begun last year, of trying to develop a unified and higher standard of instruction in our entire high school English curriculum. In like manner, all junior high school mathematics is under one instructor and because this is given by the mechanical arts teacher, emphasis is placed upon applied mathematics.

To supplement work done last year in the social studies, and to give special attention to American Civics, a new socialized text in American history was added last spring. The new instructor in this field is not only thoroughly trained in the subject matter, but through her former experience in teaching the senior high school social studies, she has a comprehensive foresight of what the student must learn to build well for future courses.

At present we are continuing the policy of teaching general science five periods a week to grade eight and science projects of real merit have been pursued. The revised schedule of music classes allows for more attention to be given to segregated classes of boys and girls; many have demonstrated some potential radio talent. Natural energy common to pupils of this age, finds an outlet in the physical education classes; but the teacher and nurse are also devoting considerable attention to problems of personal hygiene and posture.

To make our Junior High School curriculum conform to standards of a regular six year high school, we have obtained official state approval for a course in occupations which is to be added during the present term. This course will suggest to pupils the various fields of human endeavor which are available and the pursuance of this study may help guide pupils to select subjects in the senior high school more in accordance with their prospective vocational interests.

Senior High School

The curriculum of Senior High School remains the same except for one major change. For many years we have felt that some boys who were not thoroughly attracted by the liberal arts subjects, might profit by some course of a mechanical nature. Expansion of this department has at last made it possible to introduce one course in the senior high school in cabinet making and mechanical drawing. While our school remains essentially devoted to the liberal arts, nevertheless it seems wise to balance our curriculum by giving some courses in shop work and elementary mechanics. This department is also able to make minor repairs to school property or can construct some useful school equipment. Its utilitarian value in this respect has been thoroughly demonstrated this year through construction of school magazine racks, bulletin boards, picture frames, etc.

The next most noticeable change is outside of the old formal curriculum and concerns the so-called activity period. Although our school has used this period for some time as a time for class meetings, for review instruction in fundamentals and for assemblies, all of which we are continuing, the real role of the activity period is to simulate student participation in purposeful clubs or activities which, by their very nature, allow the pupils to pursue some natural bend of learning and leadership. However, our national form of government allows for an elective democratic system—so our activity period allows the pupil to assume considerable responsibility for carrying out his own learning in an elected field of interest. We call most of these activities, “clubs,” but they are really shorter courses of study designed along very practical lines. At present these consist of Boys Glee Club, Girls Chorus, Photography Club, Science Club, Creative Writing Class, Manual Training for Girls, Cooking for Boys, Dramatic Club, Art Club and Winter Sports Club. And during the noon hour a thoroughly planned and supervised program of varied physical activities is pursued either in the gymnasium or on the school grounds. The essential objective behind all this activity program is the development of students whose interests are varied and balanced.

Financial aid to a limited number of students who are anxious to put in extra time doing various types of work is given through the National Youth Administration. This help has certainly been

valuable to the students and we have turned their efforts into channels which have contributed some noticeable improvements to our building or to our operation. As a direct result of using extra girls for clerical work, we have carried through a most thorough testing program. These tests will give us data for much more effective guidance than has been possible heretofore.

It is inevitable that with the changing home conditions the residual functions of the school must increase. Consequently the guidance program is destined to undergo steady expansion. We have already increased the amount of guidance work done by both the home room teachers and the administrative officers. We are directly concerned not merely preparing students for graduation, but with getting them directly placed in proper post-secondary schools or in suitable positions. The seniors especially are given frequent counsel and much literature about schools and vocations is placed in their hands. Results of our efforts in this direction are more than gratifying, for from the class of 1936, fourteen went to higher educational institutions and almost without exception every remaining member of the class is employed. It must be said here in passing, that there are in Peterborough a number of philanthropic persons who desire that their names remain unsung, but who nevertheless are highly honored for the help they have given many worthy young people both in securing positions and in continuing to schools.

A number of other developments in our school should be mentioned. (1) We have continued adding new text books where especially needed in English 10 and 11, in sociology, algebra, and in home economics. (2) In cooperation with the Monadnock Headmasters' Club, our school has exchanged assembly programs with other schools nearby, and similarly, in these schools we have administered some comparative tests in particular classes. (3) Similarly, we are working with some leading educators to have an up-to-date course given in Peterborough, on topics of modern education for teachers and others who are interested. (4) New bulletin boards and colored pictures have been placed in many class rooms. (5) Frequent school assemblies have been given by pupils. (6) Student library service has been steadily expanded. (7) The teaching schedule provides for more frequent conference periods of teachers and pupils.

Acknowledgments

Teachers and pupils felt the loss when Mrs. Jennie Field passed away. Much of the present system remains as a fitting memorial to her efforts in behalf of education.

Mr. Tobey has gone to Dublin, but he gave excellent training in oral English and dramatics to many students. The former Miss Bresnahan is missed for her thorough mastery of all that could be orderly.

No school system could hope for a more helpful service than that given both students and teachers by our Town Library.

The Parent-Teacher Association has supported the school in many ways but its work to promote health and social training deserves special commendation.

Recommendations

To give more thorough attention to the pupils needing chemistry and physics for college and to present a more practical scientific approach for the others wishing to secure an additional credit in the science department, it seems advisable to limit registration in Physics and Chemistry to those students who can definitely meet standards of a very high grade. For other students we should offer a broader course in Practical Science, covering not only the fields of chemistry and physics, but based upon many other aspects of science in daily life.

Our library service must be constantly expanded. We are in special need of good reading material for the junior high school and more reference volumes for the senior high school. In some courses we shall soon need text books, especially in Modern History and in General Science.

The high school building could be improved by (1) adding more seats to the assembly hall (2) increasing the available storage space (3) making a sound proof exit for the typing room (4) constructing a storm door at the front of the building, (5) providing for heat in the outer office. We also need to have the grounds around the school made more appropriately available for play purposes.

In conclusion, I say with sincerity, that the general spirit which pervades the high school is excellent. The teachers are conscientiously seeking to improve their work, the students on the whole are very willing to cooperate, and parents and others in our community have given faithful support to our efforts. At the same time, we are aware of imperfections and all are striving to build an even better school, better in the work it does, but especially better in the preparation it may give its young people to go on in the life of our modern world.

Respectfully submitted,

HERBERT A. CLARK

Headmaster Peterborough High School

Report of the Central School 1936-1937

The enrollment of the Central School is as follows:

	Boys	Girls	Total
Grade I	9	19	28
Grade II	12	13	25
Grade III	10	12	22
Grade IV	10	13	23
Grade V	19	13	32
Grade VI	16	10	26
	<u>76</u>	<u>80</u>	<u>156</u>

Of the one hundred and fifty-six (156) pupils registered eight (8) are transported from Sharon. This year eight (8) children entered the fifth grade from West Peterborough. At present there are fourteen (14) pupils enrolled from West Peterborough.

There were not any changes in the teaching staff.

This year a Community Students' Health Fund, sponsored by the P. T. A. and contributed to by other organizations, has enabled us to serve a hot dish at the noon hour to those children who bring their lunch to school. This dish consists of soup or hot chocolate, prepared by Mr. Cavanaugh, at The Tavern, and is delivered at noon. About forty-five (45) children per day are being served.

Cod-liver oil is also cared for by this fund. There are sixty (60) children who take this twice a day.

I would like to suggest that something be done for posture. A few years ago, posture pictures were taken which enabled one to find the defects. Later some follow up work was done. I feel arrangements can be made to have pictures taken again, if necessary, if we can have the corrective exercises. There are a number of children who would benefit by such procedure.

I want to thank the members of the School Board for the installation of hot water in this building. It has been needed for some time and the pupils and teachers are very grateful.

Respectfully submitted,

MARY E. MCGRATH, Principal

From Mrs. Katie Nichols' Report

There has been a registration of seventeen boys and ten girls at the West Peterborough School this year, a total of twenty-seven.

The children have been unusually well, with no epidemic and very few colds.

We appreciate the cod-liver oil and the milk, which are of noticeable health value during the winter months.

This year the water-pipes have also been differently arranged, thus eliminating the difficulties experienced last year caused by freezing.

The regular study routine has gone on as usual and the children have worked hard.

Music Supervisor's Report

JUNIOR HIGH SCHOOL

1. Major Objectives:

a. To give every child the use of his singing voice and pleasure in song as a means of expression.

b. To gain a knowledge of beautiful singing through the study of unison and two-part songs.

c. Knowledge of bass and tenor parts for boys, whose voices have changed considerably.

II. Method:

A. Junior High Girls

1. The music classes for girls are held twice a week in the assembly hall. Each girl is taught the following:

- a. Correct breathing and posture for singing.
- b. Correct tonal placement, by means of special exercises to make the voice more flexible.
- c. How to follow the director's baton.
- d. Expression in singing.
- e. Correct rhythm.
- f. Clear enunciation.

B. Programs

a. Thanksgiving

1. A Thanksgiving program was given by the Junior High School just before the Thanksgiving recess, which consisted of three plays and some special music.

b. Christmas

1. Selected Junior High girls took part in the singing in the Christmas Pageant, that was put on by the High School.

C. Junior High Boys

1. Music classes for the boys are held twice a week in the assembly hall. Each boy is taught the following:

- a. Correct breathing and posture for singing.
- b. Correct tonal placement for soprano, tenor and bass.
- c. How to follow the director's baton.
- d. Correct rhythm.
- e. Expression in singing.

2. Programs

a. Thanksgiving

In the Thanksgiving program presented by the Junior High School, the boys sang several numbers.

SENIOR HIGH SCHOOL

I. Girls' Chorus

A. Major Objectives:

1. Knowledge of part-singing.
2. To enjoy music by means of expression in beautiful singing.
3. To enjoy the sociability there is in a song.

B. Method:

1. The girls chorus, a group of forty girls, meets in the assembly hall every Monday and Friday. The girls are taught:

- a. Good singing posture.
- b. Tonal quality.

- c. Rhythm in song.
- d. Correct diaphragm breathing.
- e. How to follow the baton.
- f. Expression in song.
- g. Enunciation.
- h. How to sing with ease.

2. Programs

- a. The High School girls presented a Christmas Pageant
"The Gift Bearers."

II. Boys' Glee Club

A. Major Objective:

- 1. Knowledge of bass and tenor part-singing.
- 2. Sociability in song.
- 3. To enjoy music by means of self-expression.

B. Method:

- 1. The Boys' Glee Club meets every Tuesday morning in the assembly hall.

MUSIC IN THE GRADE SCHOOLS

The main objective in grade school music is to appreciate music through the study of songs and rhythms. From the second grade up, the songs are learned mostly by the children themselves, with very little help from the teacher. They are taught the different rhythms and moods that there are in all kinds of music.

For the past two years, there has been class instruction in violin which, in another year, should make good material for orchestra work.

Elementary women	\$1,128
School Board meetings	20
School visits made by Board members	41
School visits made by Superintendent	509
School visits made by citizens	245

SCHOOL BOARD REPORT

For a number of years there has been a determined effort to departmentalize the work of the schools, and this year, through changes in the teaching staff of the junior high school, further consistent progress was made so that for the first time this policy may be judged. It is gratifying to report consistent gains in this phase of the organization of educational activities in the schools.

While the objectives of the school lie along liberal arts lines, yet many students are unable to go on to higher education. The need for work in the manual arts department which would receive credit recognition and follow the state approved course of study has caused extra expense for the present year which had not been considered in the budget, but citizens may expect ample returns from this expenditure through the broadened opportunity which well organized and properly equipped courses will afford. Such individuals as desire more training in this type of work will receive the direction of a specially trained instructor and better equipment in shop work and elementary mechanics. A policy of gradually perfecting the course is being followed.

Only three changes occurred in the staff of twenty-one full time teachers. Except for the junior high school, the staff remained intact. The new additions to the staff were Miss Ruth Thurlow, Domestic Arts; Mrs. Dena M. Churchill, Grade VIII; Mr. Ralph Duso, Manual Arts. The teaching staff has proved capable and is constantly seeking to perfect its professional skill. Evidences of intelligent and skillful work done by the students, but instigated by the staff, have been apparent in both intra and extra curricular activities. The School Board appreciates the loyal, unselfish, and diligent service which has been rendered the students both in their school work and guidance toward their future.

Peterborough has never asked its School Board to lower the standards of the schools by refusing to supply sufficient funds. The town has allowed amply for strengthening the staff and supplying needed equipment and supplies. As a result, the board has been aided materially in maintaining a steadily progressive educational policy.

Tuition received from 67 out-of-town pupils has been of marked value in helping to relieve the taxation burden. These pupils registered as follows:

Sharon (3 high) (11 elementary)	14
Dublin	17
Bennington	6
Greenville	1
Francestown	7
Greenfield	11
Temple	1
Harrisville	8
Chester	1
Randolph, Vt.	1

Peterborough is part of the Peterborough-Jaffrey Supervisory Union which includes the towns of Hancock, Dublin, Rindge and Sharon. One member of the local Board acted as president and another as treasurer of this Union. The Supervisory Union elected Lewis S. Record as Superintendent and his office has been maintained in Peterborough. He has assisted the local schools in many capacities throughout the year and has been present at all meetings of the School Board.

The trend downward in student population has been arrested with an increase from 395 to 414 this year. An earnest effort is made by the school authorities to secure approximately sixty or more tuition pupils annually. The Board approved the first catalogue describing the merits of the high school, published at the suggestion of the Headmaster, and funds for which were supplied by The American Guernsey Cattle Club.

Student health has improved to its highest point since operating on a carefully planned health program. Dr. Charles H. Cutler, the school physician, and Mrs. Ola H. Myhaver, school nurse, have given unselfishly of their time. A full report of this important work is given in the report by the medical inspection department.

The Parent Teachers' Association is unusually active this year in assuming the responsibility of providing a "Student Health Fund" administered by the School Department. This organization has aided splendidly and received the support of many local organizations in providing better health for the future citizens of Peterborough. Milk is available at a moderate cost to pupils and these funds provide free milk and cod-liver oil for needy underweight cases. New this year, is a hot dish for the noon lunch and the low cost at which this lunch is available is due to the interest of Matthew Cavanaugh. Hot lunches are provided without charge where there is need. Approximately 45 children enjoy the hot noon dish. Corrective work of teeth, eyes, and ears, continues through the money made available for this purpose by the Student Health Fund.

The School Board acknowledges the cooperation of the Public Service Company in furnishing the use of two electric stoves in the Domestic Arts Department.

For the first time since 1928 the School Board is obliged to present an article in the School Warrant for additional funds for operating the schools during the remainder of the year. Expenses which had not been forecast under the budget for last year, including repairs on the high school roof, extra transportation, new equipment in the manual arts department, and water rent are partially responsible. The School Board over a period of four years has also credited the Town with an estimated cash on hand of a large sum, larger than actual cash warranted.

The Board urges a careful reading of the reports of supervision and teaching staff as rendered and printed in this town report.

Interest, criticism, and assistance, are equally valued and solicit-

ed by the School Board. The public schools are provided with funds by the taxpayers, it is their children who are being educated, and the Board is anxious at all times to make available, facts which will aid in analyzing the problems of education and through discussion arrive at an understanding of policies.

School Board of Peterborough

REPORT OF SCHOOL PHYSICIAN AND SCHOOL NURSE

TO THE SUPERINTENDENT OF SCHOOLS AND BOARD OF EDUCATION:
Town of Peterborough, N. H.

The following is the report of the Medical Inspection Department covering the Health work for the second term of the school year ending June 19, 1936 and the first term of the school year ending January 22, 1937.

2ND TERM 1935-1936

Pupils examined	5
Defective teeth	3
Notices of defects of children sent to parents who wished to have their children cared for at the dental, tonsil, eye and toxoid clinics	
Notices of defects of children sent to parents	3
Individual inspection and first aid by medical inspector of schools	130
Number of pupils having communicable diseases (including absent from school and excluded)	177
German measles	75
Measles	13
Mumps	85
Scarlet fever	4
Pupils excluded from school on account of communicable diseases in family or for other reasons	86
Individual inspection by school nurse	2665
Number of visits to schools by school nurse	145
Inspection of class rooms by nurse	26
Talks to biology class by nurse	1
Eye and Ear tests	1
Home visits	102
First aid	82
Business calls	35
Telephone calls to and by nurse	170
School nurse conferences with:	
Officials	13
Headmaster	37
Parents at school, principal, teachers and pupils	469
Free milk has been distributed:	
West Peterborough school	7
Central school	24
This was cared for by the local Red Cross and the Federal Milk Fund.	
Pupils weighed	769
Pupils measured	250
Donations from organizations:	
For correction of vision—Rotary Club	\$25
For corrections:	
Bus. and Professional Women's Club	\$10

These contributions were placed in the First National Bank under a School Nurse Fund	\$35
Used for correction of vision	\$24.10
Used for hospitalization fees for tonsils	\$10
Balance in bank	\$.90

Other organizations contributing for the correction of defects were:

Parent-Teacher Association	\$81
For Dental work	\$75
Parent-Teacher (for eye clinic)	\$6
Samaritan Society (for eye clinic)	\$7
American Legion Auxiliary (eye clinic)	\$18
Alpha Club (hospitalization fees for tonsil cases)	\$10
Red Cross (hospitalization fees for tonsil cases)	\$5

These funds were left in the treasury of the organization and the bills for clinic service were sent to the treasurer of the Society.

The State Child Welfare through the Supervision of Health, State Department of Education took care of the fitting of glasses and hospitalization of two Peterborough school children at the Keene Hospital.

Number of Clinics:		No. of school children cared for:	
Dental ending June 3	12	(Drs. Kyes and Wilkins)	53
Eye ending May 24	8	(Drs. Eaves and Bemis)	13
Tonsil ending June 24	5	(Drs. Morse, Foster, Clark Garber)	13
Toxoid May 5	1	(Drs. Clark and Morse)	26

Dr. George Eades of Keene, N. H., operated on the eyes of two Peterborough school children at the Keene Hospital and fitted them to glasses. The tonsil clinics were conducted at the Peterborough Hospital.

The Toxoid clinic was under the direction of the Child Hygiene Division of the State Department of Health, and sponsored by the American Legion Auxiliary. Dr. Morse and Dr. Clark inoculated the school children. The school nurse gave her services to the following health projects in the town of Peterborough during the year:

(1) By teaching American Red Cross First-Aid classes under the National organization of adults, at the High school building. Two classes a week. Two hours a class for 30 hours.

(2) By assisting, (a) the school doctor as first aider at the Boys' Club Basketball tournament for girls. (b) Flood relief victims during flood conditions. (c) At a Toxoid and pre-school clinic under the direction of the Child Hygiene Department of health sponsored by the Auxiliary of the American Legion. (d) As a member of the Herald Tribune committee for fresh-air children.

The bank account and check book (school nurse fund) has been turned over to Superintendent of Schools.

1ST TERM 1936-1937

Pupils examined	426
Business letters	30
Notices of defects of children sent to parents	164
Individual inspection and First Aid by medical inspector of schools	64
Notices sent to parents for permission for children to take cod-liver oil	95
Notices sent for permission for dental clinics	60
Number of pupils having communicable diseases (including absent from school and excluded)	4
Whooping cough	1
Chicken Pox	3
Colds prevalent in October	
Pupils excluded from school on account of communicable diseases in family or for other reasons	29
Individual inspection by school nurse	685
Number of visits to schools by school nurse	181
Inspection of class rooms by nurse	24
Talks to Biology Class by nurse	0
Eye and Ear tests	426
Home visits	48
First aid	147
Business calls	17
Telephone calls to and by nurse	80
School nurse conferences with:	
Officials	24
Headmaster	66
Principal	70
Teachers	109
Pupils	668
Parents	14
Free milk has been distributed:	
West Peterborough school begun December 7	8-9-11
Central School begun December 7	25-29-31
The serving of a hot dish at noon at Central School, under the direction of Miss McGrath was begun Jan. 11.	
Pupils weighed	771
Pupils measured	425

 { 109
 { 668
 { 14

A summary sheet of defects found, has been made out for each grade teacher. A chart showing the defects of all school children is in the nurse's room. This is available to Headmaster, Principal and teachers at any time so that they may check up on the physical defects of any child to know whether some physical defect might be a cause for failing or poor school work. Disease census cards have been made out for pupils upon entrance to school. Examining robes for pupils were made by the Domestic Arts Class under the direction of Miss Thurlow. Attendance is checked each morning by the nurse and when necessary a call is made at the home of

absentees. Health posters have been distributed to grades 1, 2, and 3 to stimulate interest in cleanliness program. Health inspection is carried on each morning by the class room teacher.

Health plays are in progress.

Defects found by the medical inspector at the yearly physical examination of students.

Defect		Correction, Advice Or Treatment	
Teeth	126	Teeth	25
Tonsils	30	Tonsils	2
Vision	36	Vision	7
Hearing	2		
Orthopedia	6	Orthopedia	2
Anemic	2	Improving	2
Cardiac Condition	1		
Pediculosis	3	Pediculosis	3
Skin condition	14	Skin condition	14
Thyroid	2		
10% underweight	108	Improving	78
Wearing glasses	69	Glasses re-fitted	5
Pupils taken home by nurse			2
Children accompanied to physician			2
Children accompanied to dentist			4
Cases referred to State Nurse for this district			3

Arrangements have been made for dental clinics to begin Feb. 1 and Feb. 12, 1937.

At this time the Medical Inspection Department wishes to express its appreciation to the:

- (1) Board of Education, Health and Public Welfare (state and local).
- (2) The Parent-Teacher Association
- (3) The Rotary Club
- (4) The American Legion Auxiliary
- (5) The Samaritan Society
- (6) The American Red Cross

The time allowed for the work of the school nurse is five mornings a week during the school year.

The Medical Inspection Department also wishes to express its appreciation to all organizations and individuals who sponsored or contributed to the Community Student Health Fund and to thank the doctors, dentists, eye specialists, Superintendent, Headmaster, Principal, parents and teachers, and also the Peterborough and Keene Hospital staffs for their services.

We are also very grateful to all individuals who contributed funds for shoes, clothing, and for other causes.

Respectfully submitted,

CHARLES H. CUTLER, M. D.

OLA H. MYHAVER, R. N.

AUDITORS' CERTIFICATE

We have examined the account of the Treasurer of the School District of Peterborough, New Hampshire for the year ending June 30, 1936. We have traced all recorded receipts into the bank and find all disbursements properly vouched and correctly recorded. The bank balance as shown by the treasurer was reconciled with the bank statements.

Dated July 14, 1936

T. S. NICHOLS

C. M. CUMMINGS, Auditors

PETERBOROUGH HYMN
A. D. 1620

God our Father!
 Glory, Lord, to Thee!
Before whose voice
 Is mute the thund'ring sea!
Through wind and foam
 Thou lead'st us home—
To Thee be glory through eternity.

Lord, hunger and cold are nigh!
Lord, not for ourselves we cry—
Let not our children die!
Silence your loud alarms
God is our shield from harms—
He will make strong our arms.
Christ, who hath calmed the wave,
Christ will uphold the brave.

Christ, our Saviour!
 Father of our Faith!
To Thee we bring faint hearts and failing breath,
 Be Thou our Guide!
 With Thee we bide,
To love, to labor, and to hope till death!

EDWARD MACDOWELL
